This information will be important to you if you are currently receiving unemployment benefits through Nevada's Department of Employment, Training and Rehabilitation (DETR).

While the first 26 weeks of your unemployment benefits are the responsibility of the State of Nevada, the federal government funds all unemployment benefit extensions. On Thursday, April 15, 2010, the President signed a bill that extended the dates of these extended benefit programs to June 2, 2010.

The last date a new EUC claim can be established will be May 23, 2010 and additional funds (Tiers) will be added to your EUC claims up until June 2, 2010. Individuals can continue filing their weekly EUC claims by telephone or over the Internet at [www.expressclaim.org](http://www.expressclaim.org). The federal programs that are in place will be phased out beginning Saturday, November 6, 2010.

While this was only a 58 day extension to the bill, this agency is hopeful that Congress will approve an extension of federally funded unemployment benefits soon that will extend the program through December 31, 2010. Among the specific benefit programs that are affected with this extension:

**Federal Emergency Unemployment Compensation (EUC)**

**Tier 1** - Maximum 20 weeks of benefits;

**Tier 2** - Maximum 14 weeks of benefits;

**Tier 3** - Maximum 13 weeks of benefits;

**Tier 4** - Maximum 6 weeks of benefits;

**State Extended Benefits (SEB)** – The State Extended Benefit program will continue to be eligible up to a maximum of 20 weeks of benefits until June 2, 2010. If you exhaust your SEB claim, you may be eligible to return to your existing EUC claims and should contact the Telephone Claim Center.

**Federal Additional Compensation (FAC)**

FAC payments will only be made on claims established with an effective date of May 23, 2010 or earlier. You will continue receiving FAC payments until your claim has exhausted.

Updated information will be available on the Divisions internet site [www.Expressclaim.org](http://www.Expressclaim.org) and on the Call Center telephone lines.
