

Effective February 22, 2009, the State of Nevada's unemployment rate reached a level that automatically triggered the State Extended Benefits (SEB) unemployment program. This program allows extended benefits for individuals who have exhausted all other unemployment benefits and meet the eligibility requirements for State Extended Benefits. If you are eligible for the extended benefits, SEB may provide *up to* twenty additional weeks of benefits. The weekly benefit amount would be the same amount you have been receiving.

Applying or filing for SEB benefits is not available on the Internet. You must call one of the following telephone numbers and choose option '5' in order to establish your SEB claim:

Southern Nevada: (702) 486-0350

Northern Nevada: (775) 684-0350

Toll Free: (888) 890-8211

After your claim has been established, complete and mail the enclosed paper weekly claim forms. You will no longer be able to file your weekly claim by telephone or over the Internet. Please carefully review the enclosed information and instruction sheets.

- Notice of Claim Filing for State Extended Benefits
- Eligibility Conditions for State Extended Benefits
- Weekly Claim Forms (see instructions to determine which weekly claims to send)

**Do not return *any* SEB weekly claim forms until you have spoken to a claims representative. You must first call the Telephone Claim Center and file your SEB claim.**

The availability and work search requirements for SEB are more stringent than other unemployment programs. In almost every circumstance, you will be required to seek and accept any work you are capable of performing that pays higher than the minimum wage. Please note that this is now part of the weekly claim form and the State of Nevada is required to verify every record.
